

Field Harvest Wild Game

Castle Estate processes field Harvest wild game including Venison, Kangaroo, Rabbit, Goat and Pigs. In May 2020,

Castle Estate obtained Victoria's first Wild Game processing license for the processing of Field Harvested Venison. In October 2020, Castle Estate became the first Abattoir in Victoria to be approved for the processing of Kangaroo for Human consumption.

Venison

Castle Estate currently processes Kangaroo which is hunted primarily in the northern regions and the Victorian high country. Primarily Sambar, with small numbers of Fellow and Red deer.

Kangaroo

Castle Estate currently processes Kangaroo which is hunted in NSW and SA. This is due to the fact that Kangaroo hunted in VIC is not currently certified for processing for human consumption.

Rabbits

Wild Rabbit is primarily hunted in the central Victorian and southern NSW areas. Wild rabbit is widely recognised as a delicacy.

Hunter Accreditation

All hunters wishing to supply field harvested game, must be accredited with both the local governing authorities and Castle Estate.

Once you have become a registered hunter, Castle Estate can provide access to the relevant depots in your hunting area. Castle Estate will also supply pre-printed carcass tags to be applied to the carcass of each animal supplied to ensure full traceability of the product.

All consignments of field harvester game must be accompanied with the relevant supplier declaration and documentation.

Mobile Field Depots

Castle Estate operates Victoria's only accredited mobile field harvesting depots. This allows us to conveniently locate depots in close proximity to the hunting fields. Thus reducing the amount of travel time for hunters to deposit their hunt.

Purchasing Field Harvested Game

You can purchase individual wild game Venison, Kangaroo, Rabbit and Buffalo products from the online Providore store.

Castle Estate provides a wide range of wild game products to the wholesale and hospitality industry.

Volume prising and products are available upon request. Please contact the Castle Estate office on 03 5594 5222 to register your interest for wholesale supply of wild game products, or submit an online query.
